Thank you for the opportunity to tell you about W.K Hillquist, Inc.

Established in 1969 as a custom plastic injection molding company, we offer technical aid from assisting with part design to production of the finished product.

Our Mold Making Shop is equipped with the latest technical machinery and experienced personnel, enabling us to produce complex molds to precision tolerances. The Molding Operation consists of new micro processor controlled injection molding machines ranging from 6 to 450 tons. We are able to produce high quality parts sub-miniature to 38 ounces. Mold design, Mold Making, & Molding are all performed at our Hudson plant, cutting lead-time down considerably.

We sincerely hope that you will consider W.K. Hillquist, Inc. for the best in molds and plastic parts of the highest quality.

Please call us for more information or assistance.

Sincerely yours,

Warren K. Hillquist

Thank you for considering W.K. Hillquist, Inc. as your #1 display component supplier.

I would like to take this opportunity to introduce myself to our many valued customers. My name is Richard W. Wedge. I have been working here at W.K. Hillquist for over 20 years; promoted to Sales Manager in 1996 and now to my current position as General Manager in 2011. My main objective is to be readily available to the customer for technical questions or ideas concerning our product line. This is our seventh catalog. We genuinely want to hear what new products you want us to carry to produce your display line. If you currently buy from Hillquist and purchase some items elsewhere, let us know what the items are and we will do everything reasonably possible to locate or produce these items here, so we may become your complete source for display components. I intend on focusing my efforts towards expanding our catalog even further by working with each customer on a one-to-one basis, to produce new and innovative products.

I want to personally thank our loyal customers for your continued support. I hope that we can be a part of your future success in the modern display industry. I welcome the opportunity to work with you, answer and discuss your questions, and quote any new items you may need.

Please review Volume 7 and call for additional information or samples.

Sincerely yours,

Richard W. Wedge
General Manager
